

Project Discussion Forum

Available From: 03 Dec 25 10:25 AM

Due Date: 16 Dec 25 12:00 AM

Instructions

Dear Learner,

This is the Project discussion thread for the **FoodHub** project of **Foundations for Data Science** course.

This discussion forum is open from **December 3rd, 2025 (Wednesday) 01:25 PM EST to December 16th, 2025 (Tuesday) 3:00 AM EST** to help you with your project-related queries.

You can also use this forum, to discuss your approaches, and share roadblocks you face and discuss them amongst your peers. Additionally, a member of the support team will answer your queries.

Points to note:

Please feel free to raise any blockers or doubts that are preventing you from moving ahead with the project.

1. Please do **not** share your codes here as we do not want anyone to be biased by someone else's work.
2. For faster resolution, please make sure you mention the following points:
 - a. Error screenshot
 - b. Python version or any other technical details you want to mention
 - c. The steps that you have taken to resolve the issue and why you think it might still be occurring.
3. Please do not post general questions outside the scope of the project.
4. Please maintain the professional decorum of the forum.
5. You will get a response to your query in 24-48 hours.
6. Queries hinting towards or giving away the solution will be removed from the forum.
7. Participation in the project discussion forum/ Discussion question is optional and shall not impact your project scores.

Please refer to the following links for frequently asked questions to make sure that your question is not already answered:

- [Project FAQs](#)
- [Week 1: Python for Data Science FAQs & Week 2: Statistics for Data Science FAQs](#)

All the best!!

Warm Regards,
Program Office

I am using the low code method and have been working on my report. I have completed the written part, but every time I try to add a picture of one of the graphs I get an error and it wants me to reload the document without the picture. Is anyone else having this issue? Is it required that we have the pictures?

Hello, I have a few questions regarding the paraments of the dataset.

1. Is the rating between 1 and 5 with 1 being poor and 5 being the best?

I am doing a low code version (writing a report using template). Do I have to include EVERY graph and data point in the report? I am adding only few graphs most relevant, please advise.

Does the full code require that I submit a HTML or PDF?

Does anyone know what the grading timeline is for our submissions? I know the deadline is 3 AM EST on 12/16, but I was wondering if projects submitted earlier would be graded.

What is this section at the bottom that auto generates (in the full code version). It is showing me errors for a lot of the markdown cells.

Hi,

If we submit the assignment using the 'Full Code Version', do we still need to prepare a report with the provided

Hello everyone,

I was not able to download the google collab file into html pdf. I finally used it the pdf option only.

As someone pivoting from an entirely unrelated field, would it be possible to see an exemplar of a completed business report? I would like to practice composing one and, eventually, add it to my portfolio/experience. I know there's the template, but because I have never written a business report I'm not sure what the end product should

Hi, I am struggling to plot the restaurant names and the customer IDs for univariate analysis. There are so many restaurants for a count plot that it doesn't seem possible to plot. Does anyone know how I might handle this? And for the customer IDs, I find I want to analyze these as unique objects instead of integers. Is it possible to convert it or

I guess, we should be leaving the "Questions" tag and the "marks" in the final html as it is.

Hi,

Not sure if I just can't see the actual dataset to use. Is there a special location where the dataset is stored?

For Low Code response in pdf should we limit ourselves only to 1 page for each TOC item e.g. "Data Overview" / "EDA .. Analysis" might need more than 1 page. Is there a limit?

Hi there, for the foodhub excercise, the 'rating' column has 'not given'. Is that the value that customers refused to rate their order or it is a missing value?
